

80ZIII

80ZIII

SUMMARY OF FEATURES

- The reliable, fuel efficient Cummins 6CT 8.3-C engine supplies high torque and a big 178 hp.
- The 4-speed powershift transmission speeds cycles with soft shift and convenient twist grip lever.
- Sealed, Z-linkage for high breakout force and easy digging.
- High capacity, sealed wet-disc brakes provide long service life, with protection from the operating environment.
- High-bias, torque proportioning differentials reduce wheel spin in slippery conditions.
- Tight turning diameter offers excellent maneuverability.
- Large 23.5 x 25 tire provides excellent flotation and high load capacity.
- High volume pressurized hydraulic tank keeps oil cleaner, longer.
- Safety features include separate brake systems front and rear, emergency brake, major system monitor, reverse alarm, neutral start, and optional emergency steering.
- Operator features include isolated, sound suppressed cab, adjustable steering column, suspension seat, bucket leveler and boom kickout.
- Service features include sealed linkage pins, remote mounted grease fittings, tire inflation kit, and hinged hood-sides.
- KLEW – Kawasaki Loaders Early Warning Oil Analysis program measures wear metals and contaminants in the oil to monitor wear rates of major components. This sophisticated test allows overhauls to be scheduled to reduce downtime and costs.

CUMMINS ENGINE

The reliable Cummins 6CT 8.3-C diesel provides 178 hp. Fuel economy is outstanding. Cold start kit is standard. Resilient engine mounts reduce vibration and noise. Two stage Donaldson air cleaner protects the engine. Cummins engines are supported by an extensive nationwide dealer network.

SEALED, WET-DISC BRAKES

The air-over hydraulic, outboard mounted, wet-disc brake system has high capacity, long-life and added protection from harsh elements. The brake system for the front and rear axles are separated for added safety. Full brake and brake/declutch capabilities are available by different pedals in the operator's compartment.

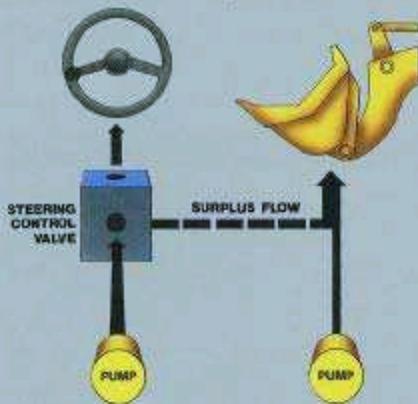

4-SPEED TRANSMISSION

The soft shift transmission reduces shift shock, speeds cycles and protects the powertrain. The single twist-grip shift lever makes changing gears or direction very simple.

ENERGY-EFFICIENT HYDRAULICS

The ZIII series loaders all incorporate energy efficient hydraulics. The unused steering fluid is utilized by the loading circuit. This gives excellent performance with low horsepower drain. The 80ZIII tank is pressurized to keep hydraulic oil cleaner, longer. This large capacity design reduces oil temperature and heat on hoses, seals and other components, adds life, keeping the 80ZIII dry longer. To insure these high standards of quality, Kawasaki hydraulically tests each loader.

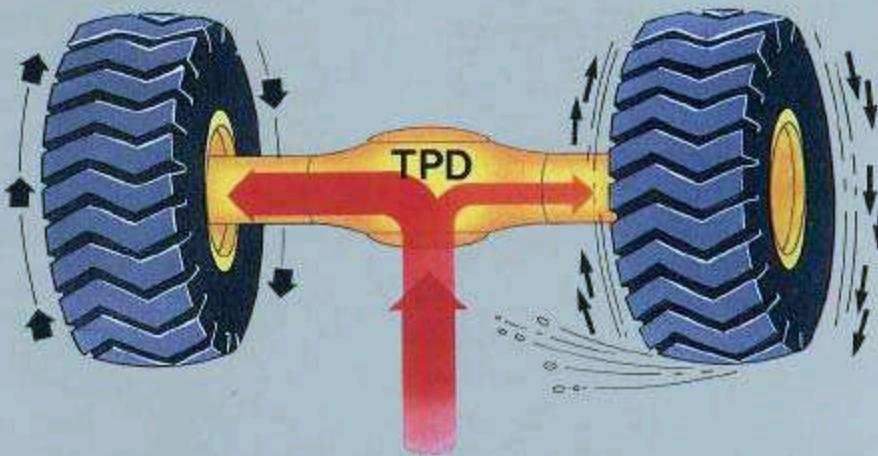

SEALED Z-LINKAGE

The Z-linkage provides high breakout force for digging tough material. The 50° bucket rollback permits carrying the full load without spillage. The linkage pins are sealed to retain lubricant. The bucket pins are sealed for extra protection.

HIGH-BIAS, TORQUE PROPORTIONING DIFFERENTIAL

The standard TPD reduces tire spin in soft or slippery conditions. The 80ZIII has an industry high, bias-ratio which can transfer up to 70% of torque to the non-spinning wheel, adding both tire life and productivity.

OPERATOR COMFORT

The comfortable ROPS cab is rubber mounted and sealed to reduce vibration and sound levels. The cab is well appointed with tinted glass, sliding windows, front and rear wipers and washers, defroster fan, side mirrors and interior rearview mirrors. The fully adjustable suspension seat and adjustable steering column provide added comfort. Excellent visibility in all direction improves cycle times and safety.

COUPLER VERSATILITY

The 80ZIII with a quick coupler can be utilized to perform almost any job whether backfilling a ditch, laying or carrying pipe, sweeping, carrying logs or clearing snow. The 80ZIII adds economy to any work site. And a third hydraulic valve is easily added, if needed.

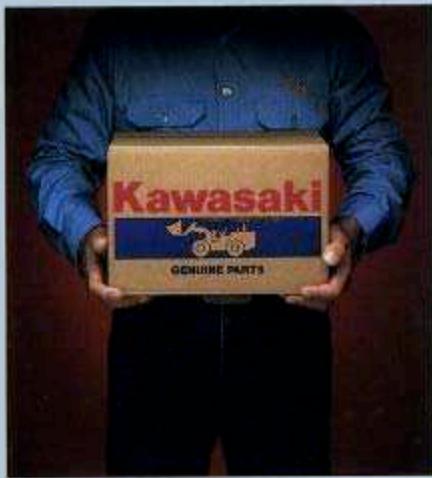

SERVICEABILITY

The 80ZIII offers many features for proper efficient servicing. All grease fittings can be reached from ground level. Many of the fittings are grouped together. Convenient panels and hinged hoodsides make routine service checks simple. Many hoses share commonality. Engine and oil filters are of spin-on design. A tire inflator and special tool kit are standard.

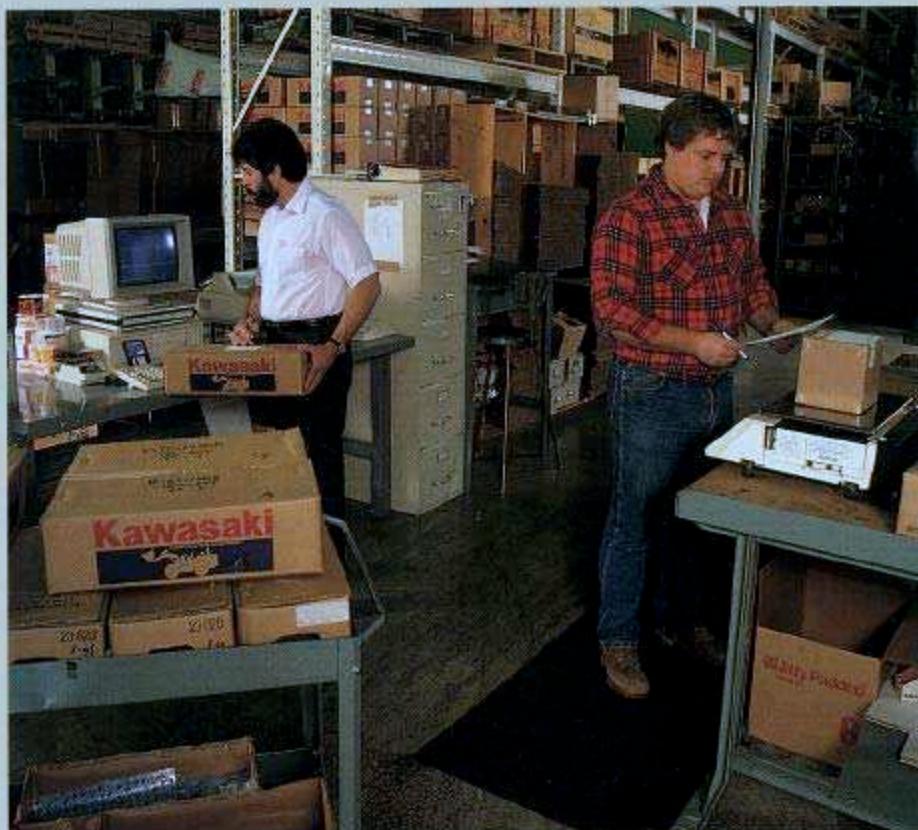

KAWASAKI ZIII SUPPORT

KAWASAKI'S PDQ

Kawasaki understands the need for timely delivery of parts to any of its users. To provide an unsurpassed level of service in this area, Kawasaki maintains an extremely high level of parts availability and fast response from our parts distribution network and dealers.

KAWASAKI LOADERS MANUFACTURING CORP., USA

The Kawasaki commitment has been further demonstrated with the establishment of Kawasaki Loaders Manufacturing Corp., USA (KLMC). This new factory, located southwest of Atlanta, is dedicated to providing the same high quality product Kawasaki has become known for. The outstanding support we offer through dedicated independent dealers completes this commitment to you.

KAWASAKI HISTORY

The dependable Kawasaki loader is manufactured by Kawasaki Heavy Industries. Kawasaki is a large industrial manufacturer of ships, aircraft, locomotives, robots, plants, hydraulic components, and motorcycles, as well as a variety of construction equipment. The first Kawasaki articulated loader was manufactured in 1962, making Kawasaki a true pioneer in the loader market. Kawasaki loaders are sold in over 100 countries and Kawasaki is one of the largest loader manufacturers in the world today.

OPERATING SPECIFICATIONS

80ZIII

ENGINE

Make/Model/ Fuel Type	CUMMINS/6CT-8.3-C/Diesel
Type	4 cycle, watercooled, turbocharged direct injection
Horsepower rating at flywheel	178 HP/2200 rpm
Maximum torque	557 ft-lb (77kgm)/1500pm
Number of cylinders	6
Bore and stroke	Φ 4.49" × 5.32" (Φ 114mm × 135mm)
Total displacement	504.5 in ³ (8268 cm ³)
Alternator	AC24V-1560W, (65AMP)
Starting motor	24V-7.5kW/10HP]
Battery	12V-150Ah, 2 Units
Governor	all speed, mechanical type

TORQUE CONVERTER AND TRANSMISSION SPECIFICATIONS

Torque converter	3 elements, single stage	
Torque stall ratio	3.06:1	
Main clutch	wet hydraulic, multi-disk type	
Cooling method	forced circulation type	
Transmission	full power shift, 4 speed forward & reverse	
Speeds	Forward	1st: 4.2 MPH (6.8 km/h) 2nd: 7.9 MPH (12.7 km/h) 3rd: 15.1 MPH (24.3 km/h) 4th: 22.7 MPH (36.6 km/h)
	Reverse	1st: 4.3 MPH (6.9 km/h) 2nd: 8.0 MPH (13.0 km/h) 3rd: 15.3 MPH (24.7 km/h) 4th: 22.9 MPH (37.0 km/h)

AXLE SYSTEM

Drive system	4-wheel drive
Front and rear axle	full floating banjo type
Tires	Standard: 23.5-25-16PR (L-3) Optional: 20.5-25-16PR (L-2) 20.5-25-16PR (L-3) 23.5-25-16PR (L-2)
Reduction and differential gear	spiral bevel gear, 1 stage reduction
Final reduction gear	outboard mounted, internal planetary gear
Oscillation angle	± 12° (total 24°)

HYDRAULIC AND STEERING SYSTEM

Type	articulated frame steering
Steering mechanism	hydraulic power steering unit, mechanical follow-up
Lift (boom) cylinder	two (2) double-acting piston type: Φ 5.9" × 31.0" (Φ 50mm × 788mm)
Tilt (bucket) cylinder	one (1) double-acting piston type: Φ 7.1" × 20.6" (Φ 180mm × 523mm)
Steering cylinder	two (2) double-acting piston type: Φ 3.1" × 15.9" (Φ 80mm × 405mm)
Main Pump	gear type: 22.5 GPM/1000 psi @ 2200 rpm (85 LPM/70kg/cm ² @ 2200 rpm)
Steering oil pump	gear type: 50.2 GPM/1000 psi @ 2200 rpm (190 LPM/70kg/cm ² @ 2200 rpm)
Relief set pressure	2990 psi (210 kg/cm ²)
Loading	2990 psi (210 kg/cm ²)
Steering	2990 psi (210 kg/cm ²)
HYDRAULIC CYCLE TIME: [*]	
Lifting time (at full load)	6.2 sec.
Lowering time (empty)	3.4 sec.
Bucket dumping time	1.4
TOTAL	11.0

*Measured in accordance with SAE J732C.

SERVICE REFILL CAPACITY

LOCATION	CAPACITY Gal (Lit)
Engine (Coolant)	14.5 (55)
Fuel Tank	63.4 (240)
Engine (oil pan)	6.1 (23)
Front axle	14.5 (55)
Rear axle	14.5 (55)
Gear box	0.1 (0.4)
Torque converter and transmission	9.2 (35)
Hydraulic system (including tank)	38.3 (145)
Brake oil tank	0.4 (1.5)

BRAKE SYSTEM

Service brakes	4 wheel air over hydraulic wet disc brake
Parking brake	spring applied air released type, located in front drive shaft
Emergency brake	same as parking, applied on failure in air or brake fluid line.

Belly Guard (Rear Frame)	lb (kg)	+120 (+55)	+90 (+40)	+90 (+40)	in (mm)		

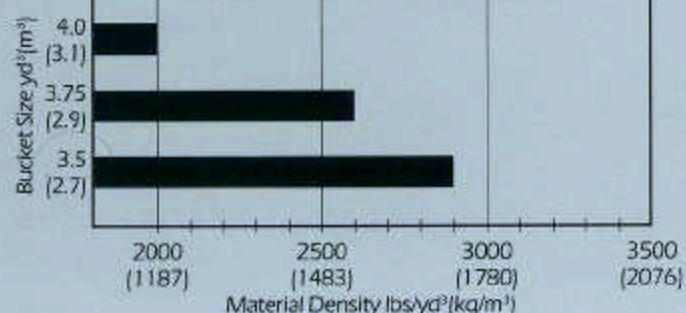

Tread 6' 9 1/8" (2060)
 Width (Outside Tire) 8' 9 1/8" (2685)
 Width (Outside Bucket) 9' 2 1/4" (2800)
 Equipped with GSC bucket
 with bolt-on cutting edge
 23.5-25-16PR (L-3) TIRE and ROPS Cab.

BUCKET SELECTION GUIDE STANDARD BUCKETS

BUCKET SELECTION GUIDE HIGH LIFT BUCKETS

STANDARD EQUIPMENT

Adjustable steering column	Alternator 24V - 65 amp	hour meter hydraulic oil level indicator	ROPS canopy
Air cleaner (double element type)	Battery Two 12V - 150 Ah	Horn (electric) Indicator lights high beam working light	Seat (adjustable suspension type) Seat belt
Alarms, audible	Boom lift kick out	Ladder (access to both sides)	Special tool kit
air pressure	Bucket leveler	Lights	Switches
brake oil	Cold start	two head lights	cold start
engine oil pressure	Draw bar	two rear lights	lights (front and rear)
parking brake with transmission engaged	Emergency brake	two stop, back-up & tail lights	parking brake
Alarms, visual	Engine coolant expansion tank	Neutral safety start	transmission declutch
air pressure	Fenders (front and rear)	Parking brake (spring applied air release type)	Tires
air filter clogging	Frame lock	Reverse alarm	23.5-25-16PR (L-3)
battery discharge	Gauge		Tire inflation kit
brake oil	air pressure		Transmission declutch
engine oil pressure	engine water temperature		Vandalism protection
engine water temperature	fuel level		
parking brake	torque converter oil temperature		

OPTIONAL EQUIPMENT

Air conditioner with heater and defroster	Buckets (see bucket data)	ROPS cab: enclosed, with sound suppression, front and rear windshield wipers and washers, front working lights, defroster fan and rear view mirrors	Tires
Air dryer	Emergency steering*		20.5-25-16PR (L-2)
Belly guard	Heater		20.5-25-16PR (L-3)
Bolt-on counterweight	Rear working lights		23.5-25-12PR (L-2)
Bolt-on cutting edge			Turn signal and four-way flasher
Bolt-on wear plate			Three spool valve control kit

*Special order
